

## **Questionnaire of Acceptance by Decision Makers**

Prof. Dr. Roland Trill  
Krankenhaus-Management & eHealth  
University of Applied Sciences  
Flensburg, Germany

Stockholm  
21st May 2007

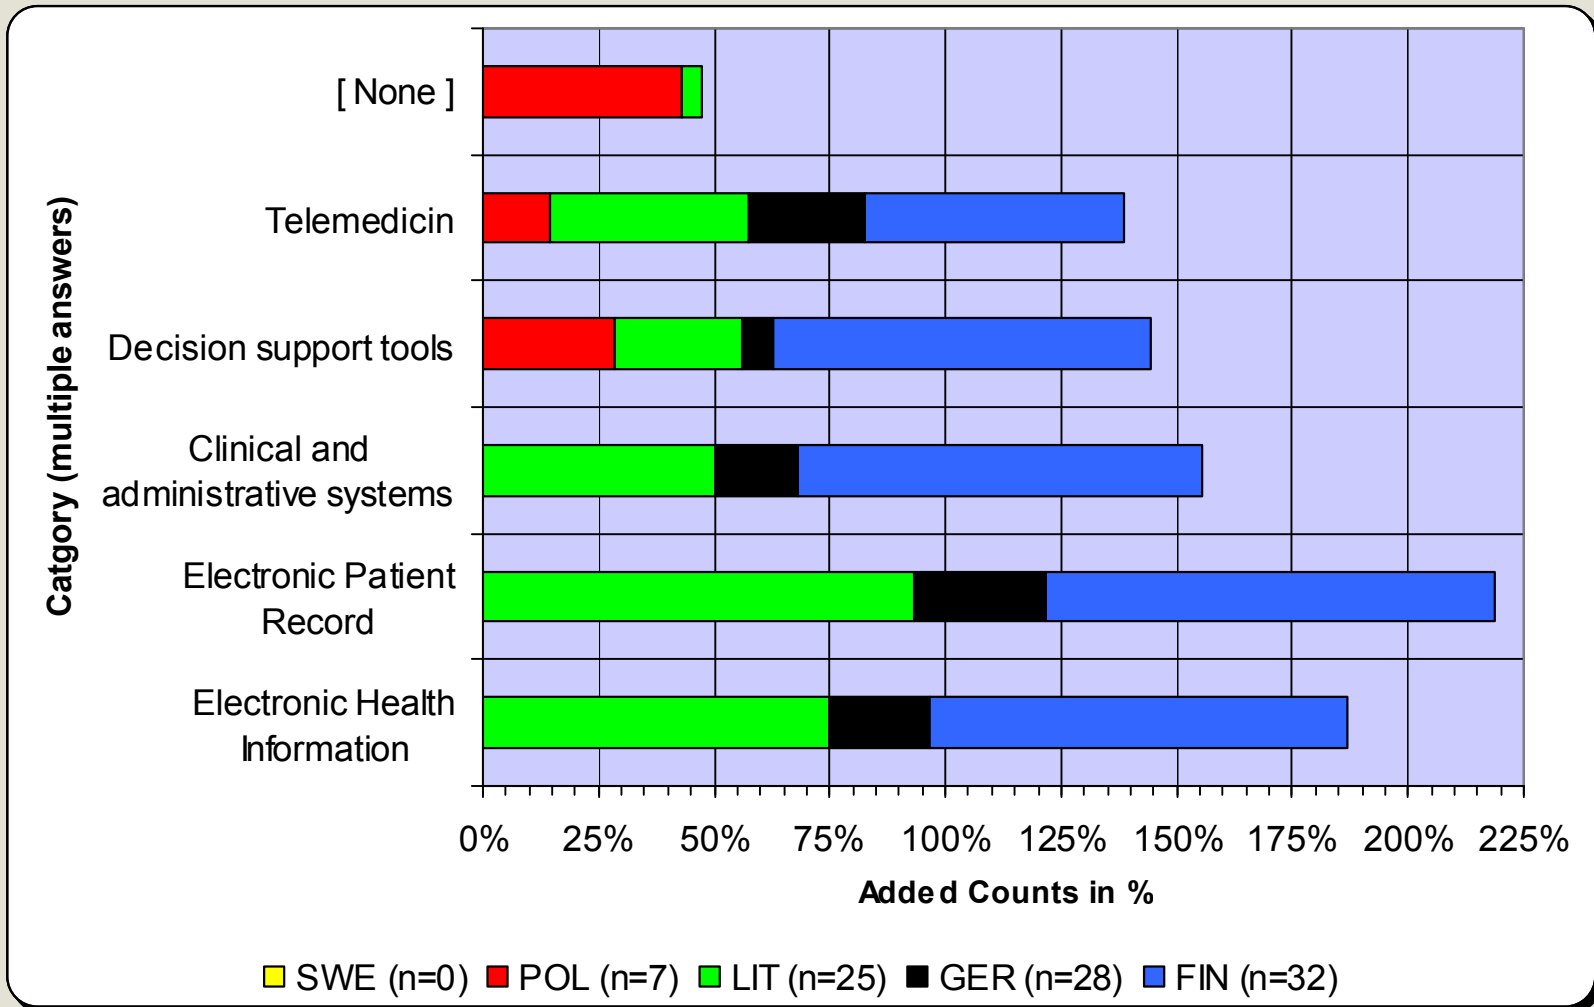

## Group B: Decision Makers

### What is your practical knowledge about eHealth?

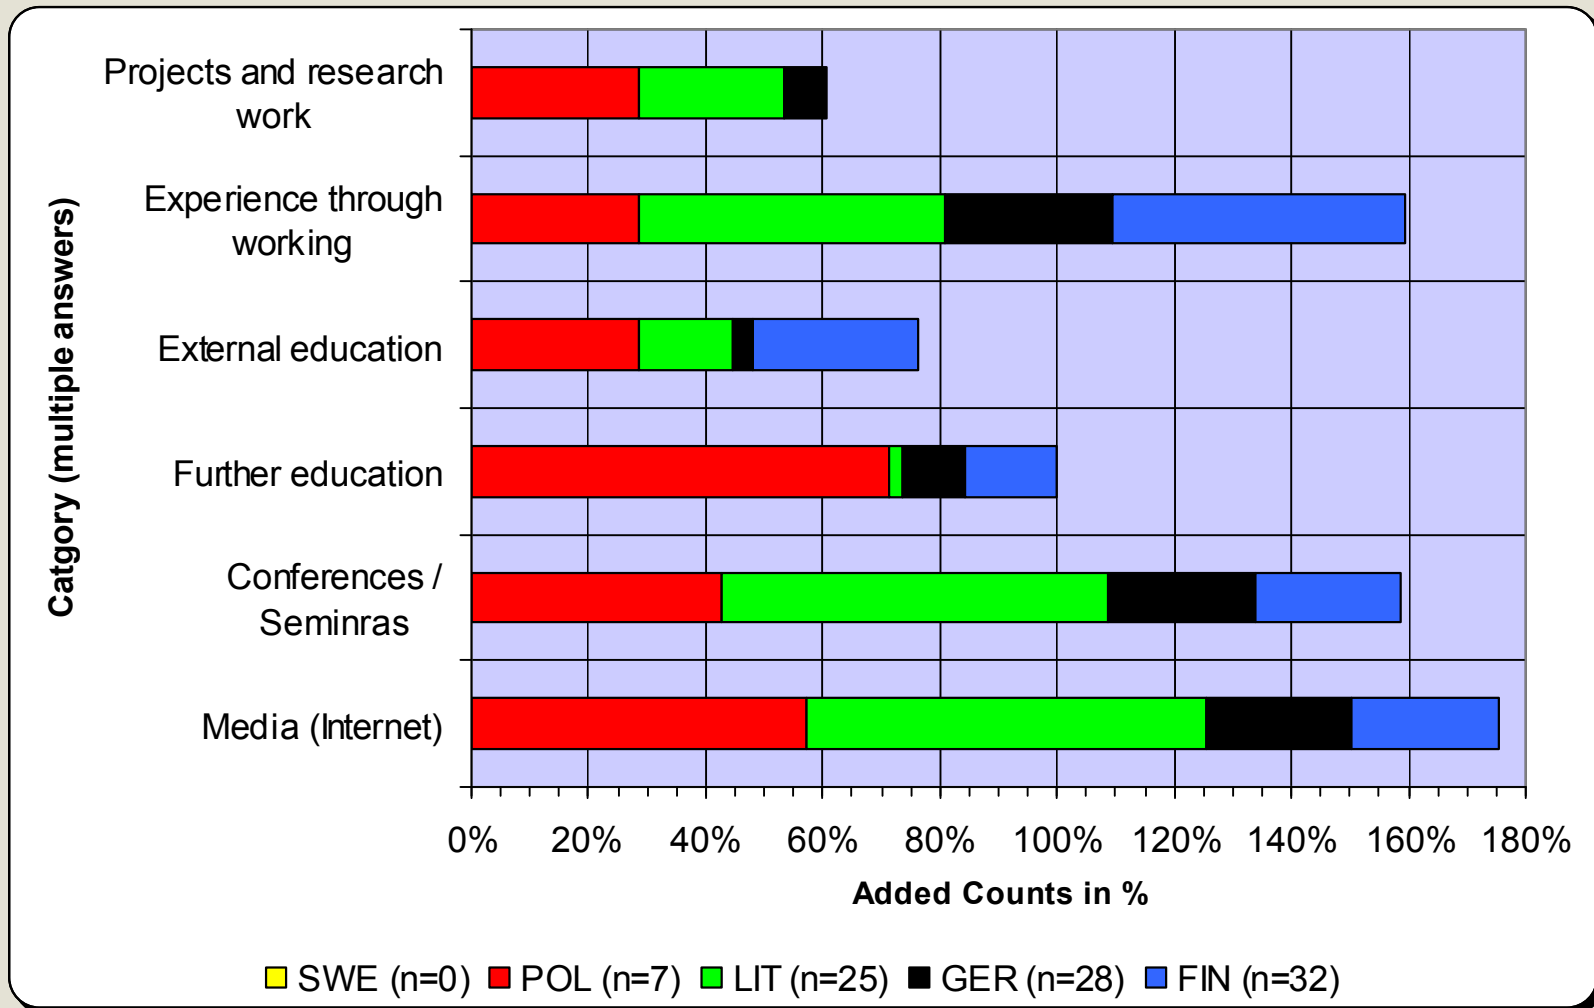

## Group B: Decision Makers

### Which of the following key applications do you know?

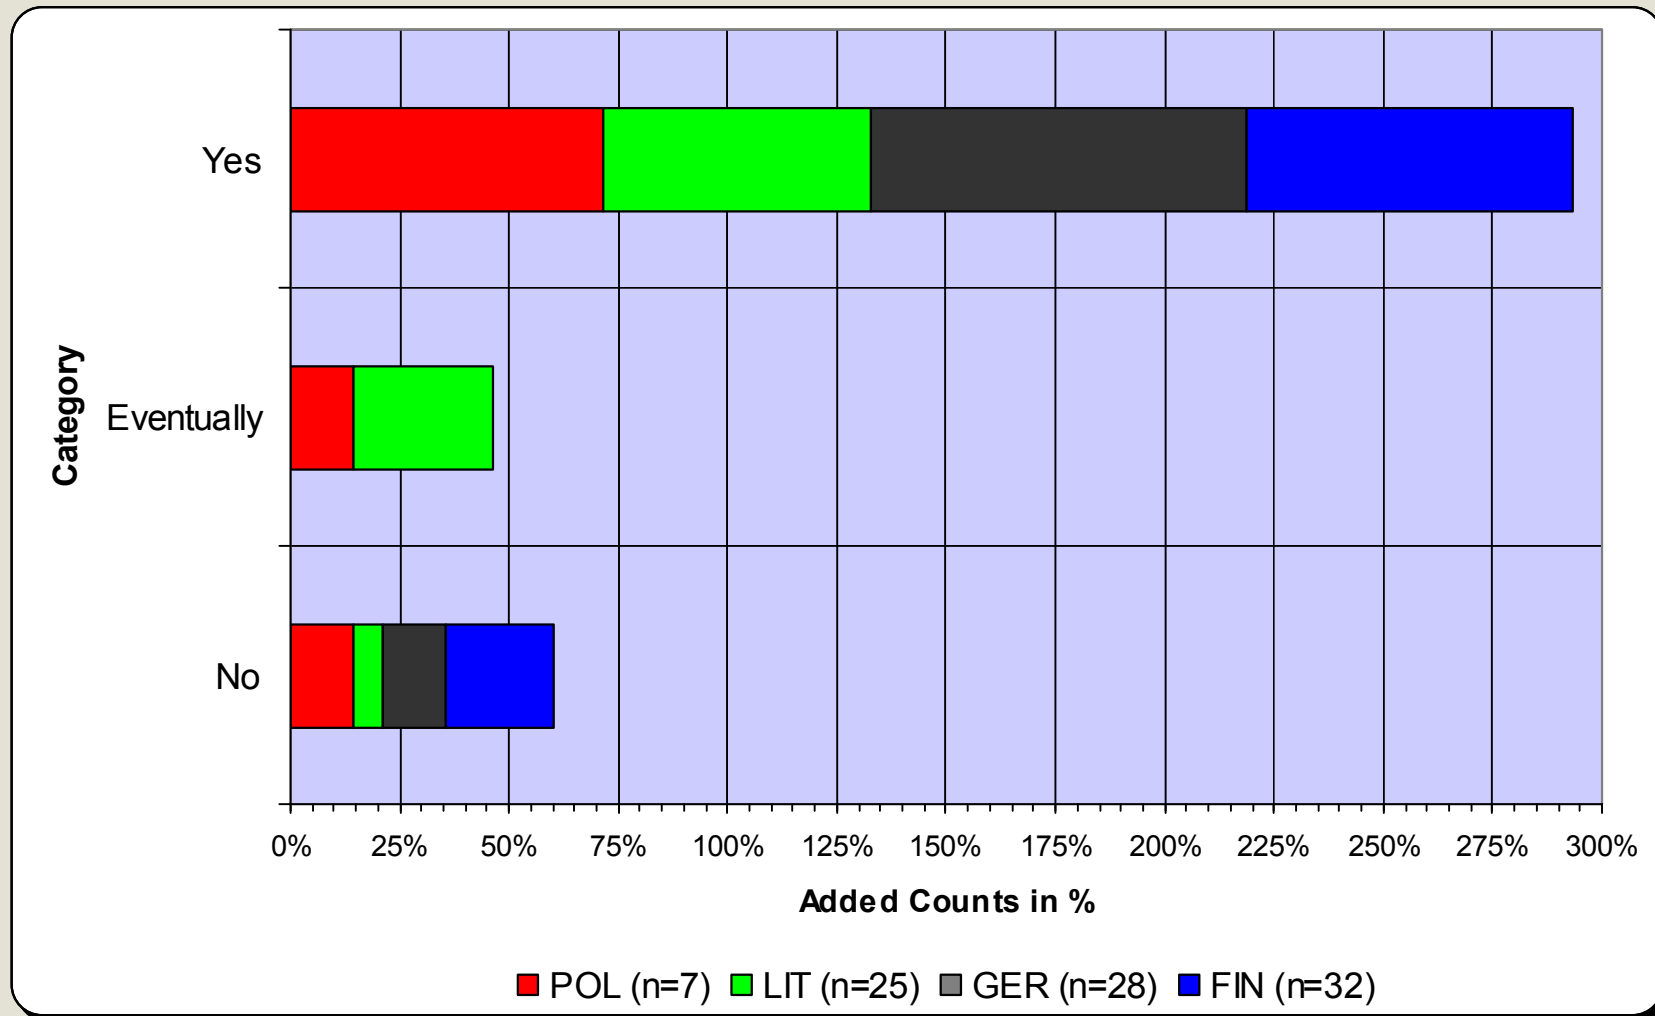

## Group B: Decision Makers

### Where did you learn about the above mentioned key applications?

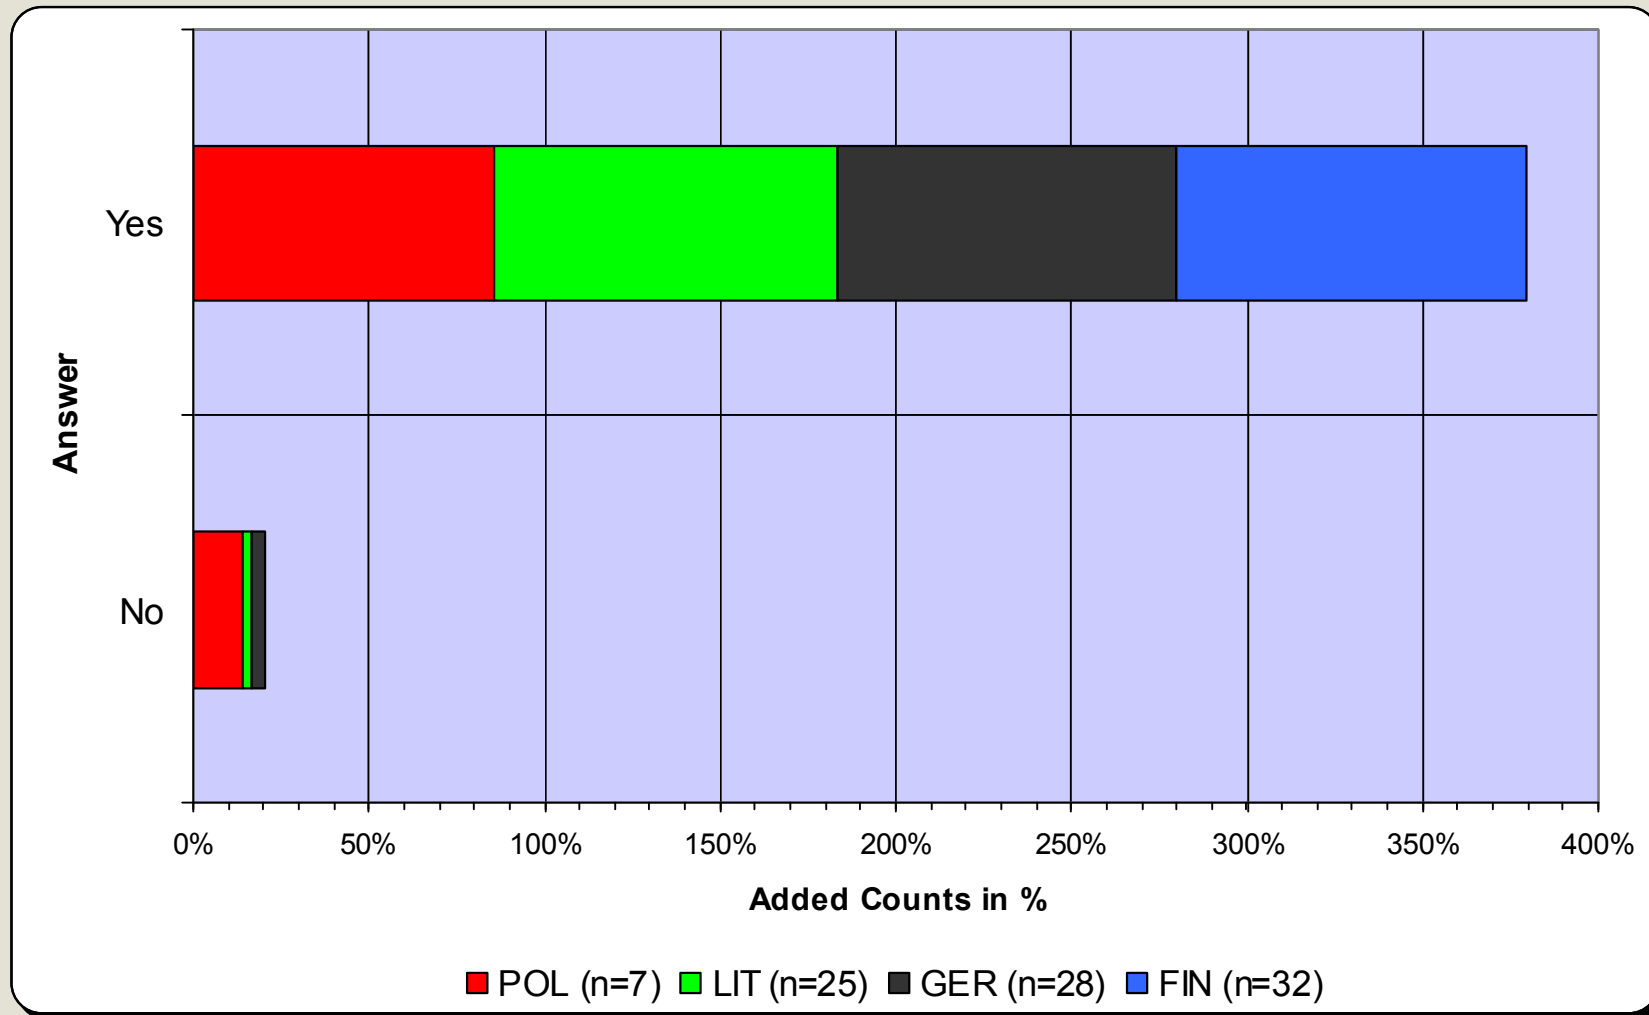

## Group B: Decision Makers

### Would you like to allocate more resources for eHealth at your institution?

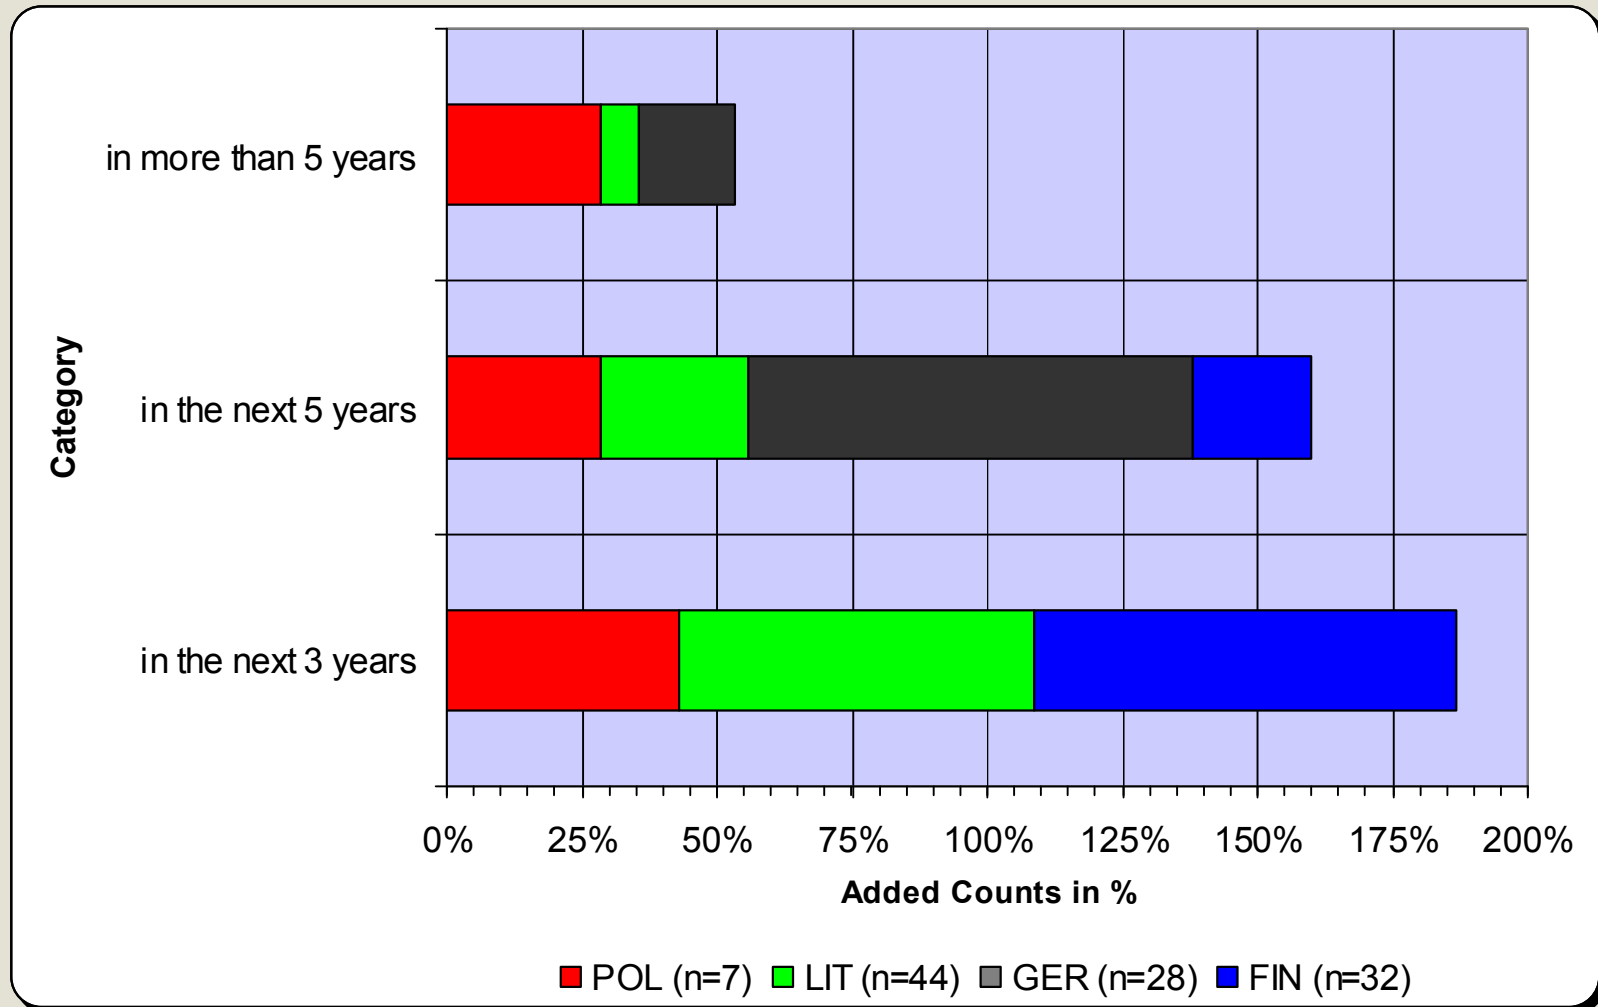

## Group B: **Decision Makers**

Do you think that eHealth is an important factor for your institution?

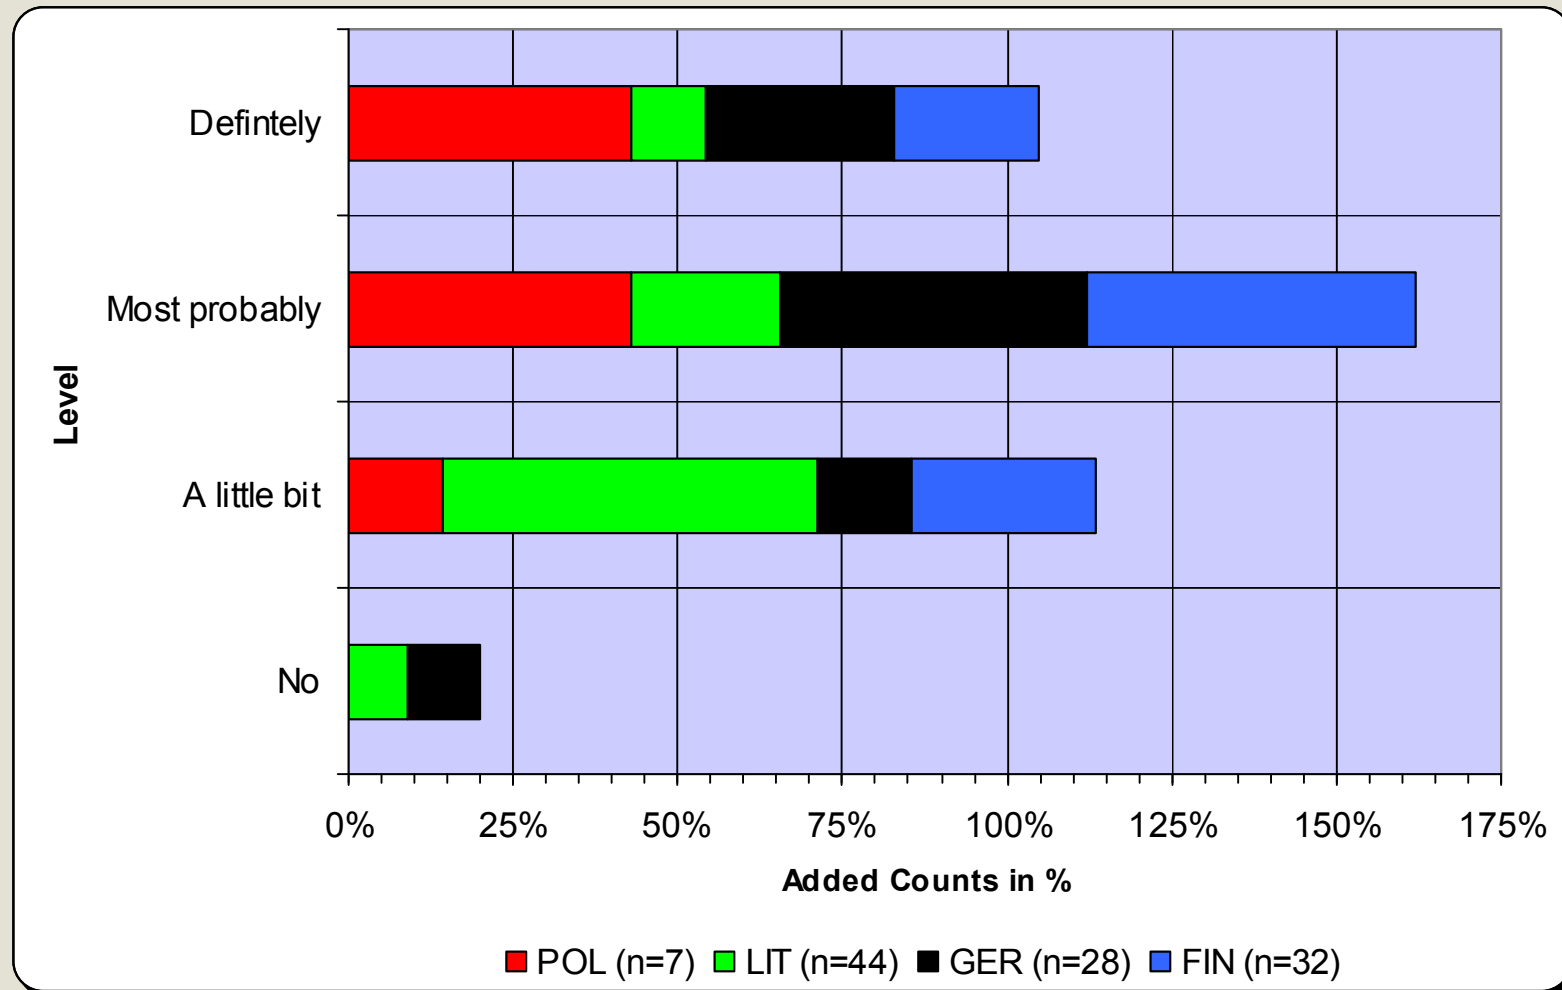

## Group B: Decision Makers Development of eHealth in your Region:

Almost all health care providers should be connected through the eHealth network...

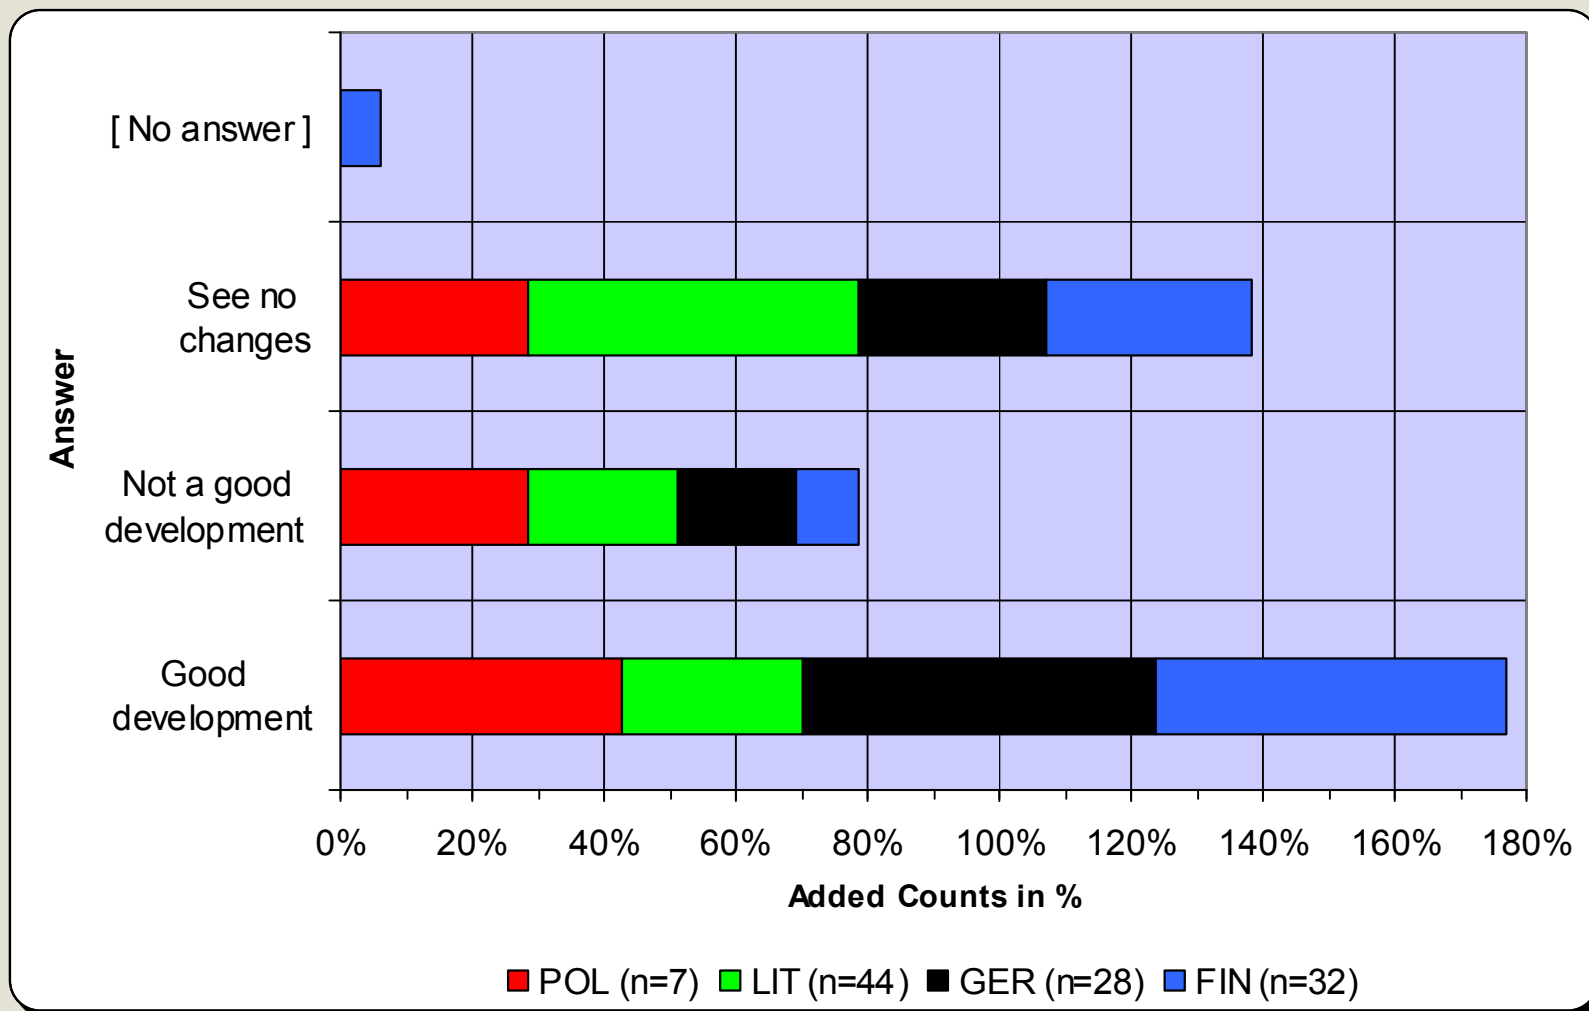

## Group B: Decision Makers

Can eHealth increase the access to health care, particularly in remote (rural) areas of the region?

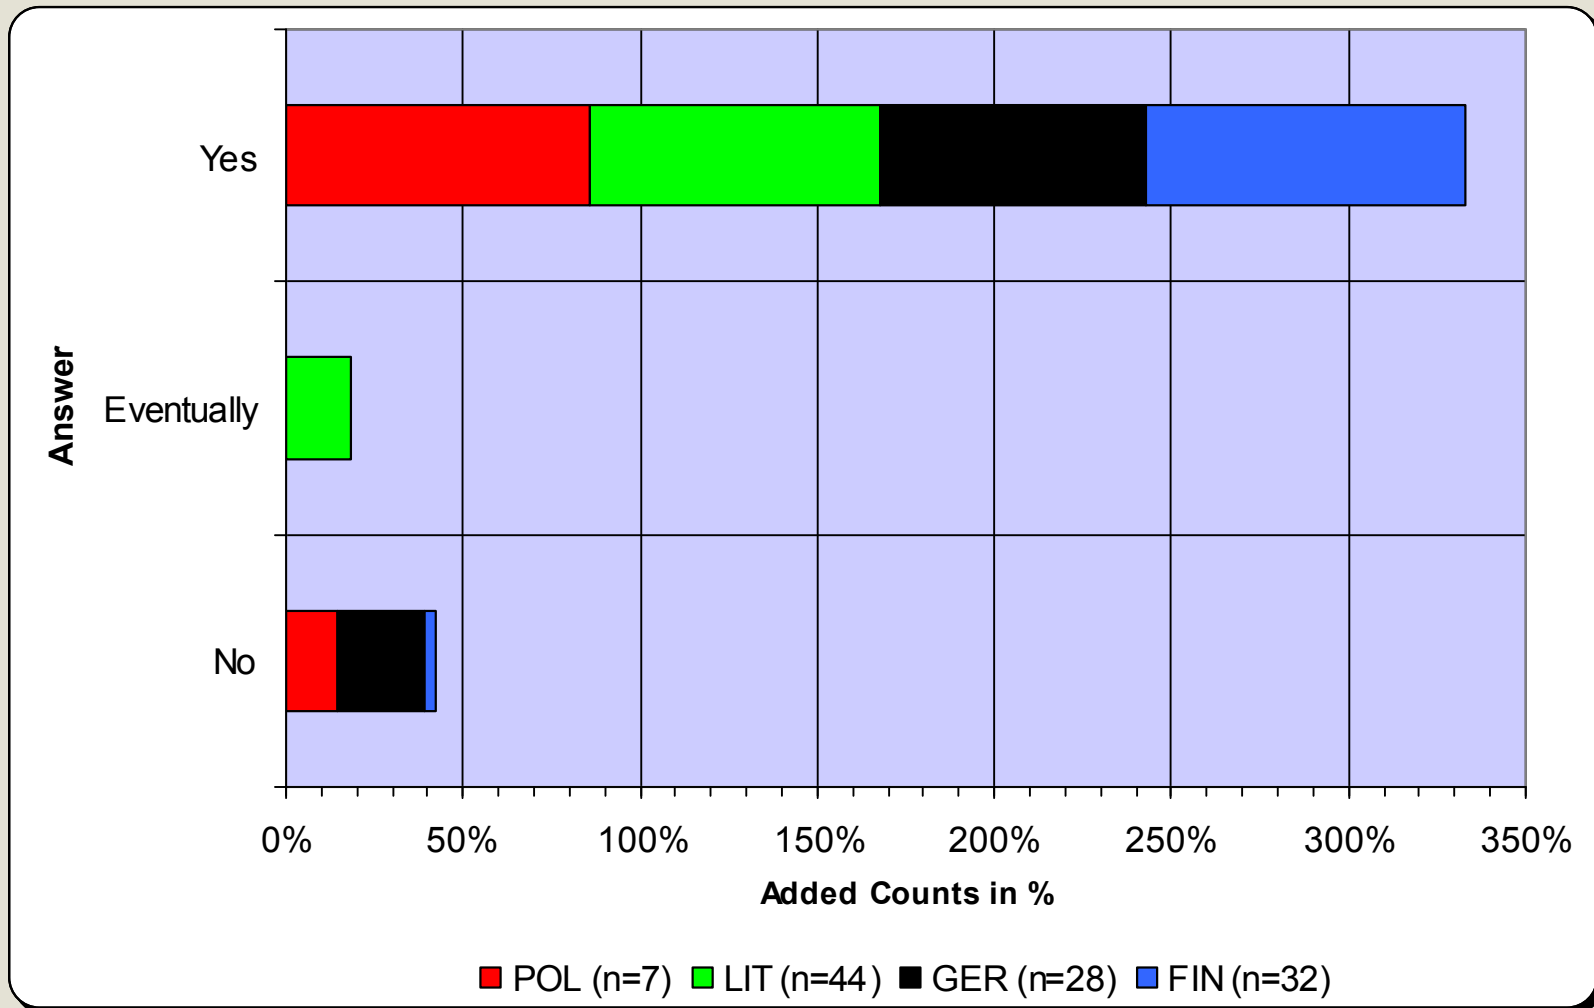

## Group B: Decision Makers

### What do you think of the cross border (transnational) development of eHealth?

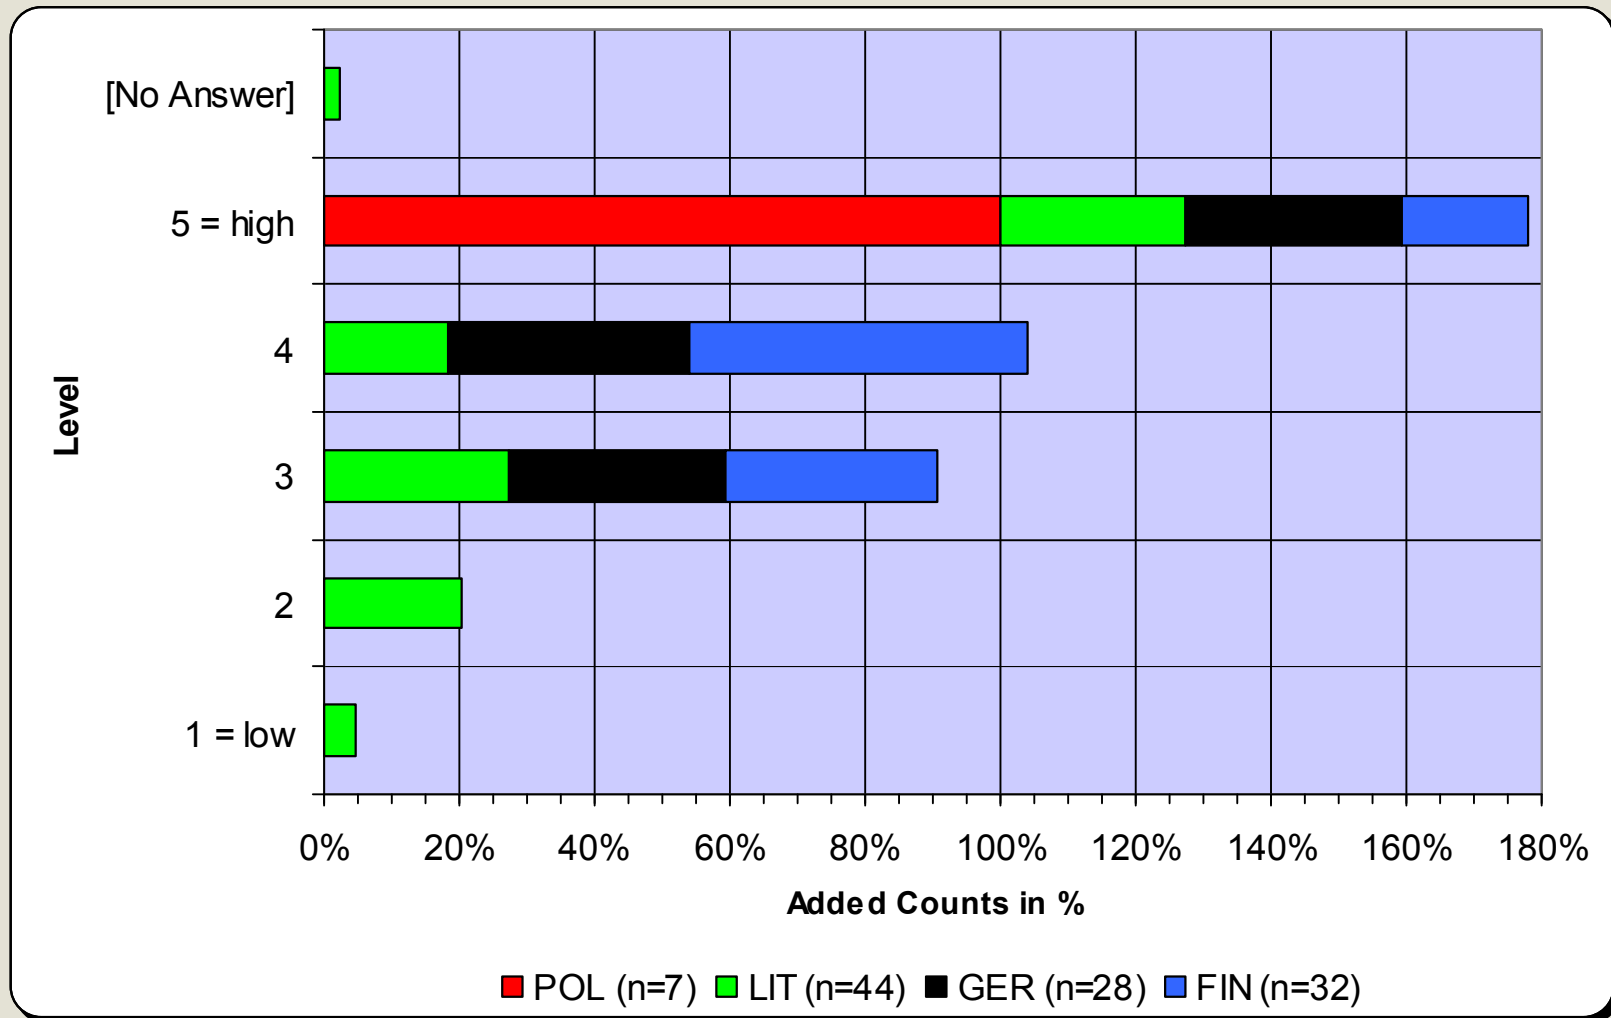

## Group B: Decision Makers

### Will a region as a whole benefit from establishing transnational and regional eHealth networks?

## Group B: Decision Makers

### How important is transnational eHealth for exchanging experiences in medicine?

**Thank you  
for your attention.**
